

Hi there!

Start charging your EV

Quick Start Guide to
owning a **charging station**

Your charging station includes
E-Flux Software, which
enables the following **features**:

24/7 access to the
E-Flux hotline in case
of any problems.

Set a tariff for **automatic billing**.
Every month you'll receive a
pay out of the charge sessions.

Technical Dashboard
for your installer for
remote maintenance.

1. **Create** an **E-Flux account** by scanning the QR code or go to <https://www.e-flux.io/signup> *

*Is this charging station facilitated by your employer? Check your email for the invitation.

2. Follow the steps to add the location, and **register** your **charging station**.*

*Preferably on a computer or tablet.

3. Please **put the sticker** with the QR code **on your charging station**. This allows the charging station to be identified in case you have an issue, and helps speed up your support inquiry.

**Feel free and
have fun charging!**
